

During this internship in the United Kingdom, I would like to improve my level of English because in my opinion it is very important to know how to speak English fluently.

My father owns a big farm in France and we are going through direct seeding.

I will take over this farm at the end of my studies.

That's why this internship would allow me to learn new methods on direct seeding, that would be very beneficial for me as well as for my father.

Thank you for your understanding

Cordially.

Robin Charles-Edouard
